

Can You Be Both Rich and Spiritual?

Yes You Can Be Both, Absolutely!

If you think being wealthy is not spiritual or enlightened you will struggle all your life. It's that simple.

Those of you who've been following my work for a while will be surprised to hear me talk about making money. I usually talk about giving up money and moving to an informal free gift economy where no one keeps score and what goes around comes around, a system based on love and generosity rather than fear and meanness. I still stand by that. That is still my ultimate goal. You can find out more by reading my book, Love Not Fear, or by visiting my website <https://LoveNotFear.uk>

In my book I talk about what I call the Ten Pilers of Utopia, or ten things we can do differently so as not to cause one another to live in fear. Giving up money and moving to a free gift economy is just one of those ways. But actually there is an eleventh way, an eleventh thing that causes people to live in fear and that is having no money in an old paradigm economy that is still reliant on money. It is this dilemma that I want to address today.

We are currently living between two worlds, two paradigms. While keeping our eyes on the prize of a loving, generous informal free gift economy we still need to be able to survive and thrive in the old system of fear, money and meanness. We need to find ways of supporting ourselves and each other while syphoning money out of the old system and using it to build the new.

Not for much longer hopefully but at this time even starting a money-free, off-grid, self sufficient, spiritual community costs money. How crazy is that? We need money to escape the money system.

We need to find a way of funding our spiritual and ecological projects that usher in the new paradigm as the old system crumbles away. You deserve the best of everything especially if you intend to use your new wealth to help humanity. Fortunately I have found an ethical way of taking money out of the old system and using it to build the New Earth, a way that does not involve working our fingers to the bone making a rich man or woman even richer while we stay poor.

Let's play the banksters at their own game. We put our money in their banks and they trade it on the forex market as well as stocks and share and futures.

They make fortunes doing this which all go to paying their fat bonuses, while having the audacity to pay us a pittance in interest. How long are you going to let them screw you like this?

A better way is possible. I have found a forex trading platform that makes all the trades for us on our behalf, using their state-of-the-art in-house computerised system. This company is in it's third successful year of trading and has an excellent track record, currently paying members over 5% every single week on average. Contrast that with the less than 1% a year you are getting from your bank. In addition to this there is a generous commission structure for introducing new members.

Please do not confuse this opportunity with the many scams on the internet. This is a solid company with the highest of ethics and is helping to fund worthwhile projects all over the world.

Financial Freedom really can be yours without compromising your spirituality or tying yourself to the old paradigm.

People all over the world are using this method to support themselves and their families, as well as to fund humanitarian projects and to hasten the arrival of the New Earth.

Let me introduce you to the 8th wonder of the world, CFX or CashFX or the CashFX Group. This is a Forex trading platform but don't worry, you don't need to know anything about Forex. The Company will do all your trading for you.

When you put your money in the bank they invest it, on the stock exchange and in Forex, and give you a tiny percentage of the profit as interest. You are probably getting less than 1% a year.

CFX is a trading company not a bank but it works in a similar way except they pay you a much bigger percentage of the profits. Members are currently enjoying around 20% a MONTH, not 1% a year.

You also receive a generous commission every time you introduce someone new AND every time they upgrade their pack. By the time they are trading a 100,000 USD pack you will have received 16,500 USD in commission FOR EACH FRIEND YOU INTRODUCE! It normally takes around four to four and a half years to rise from a 300 USD trading pack to a 100,000 USD one if you are relying on trading profits alone, but you can get there much faster when you introduce people. I personally know people who have achieved it in less than a year and you will be introduced to those people.

Welcome To My Cash FX Team.

The complex world of Forex trading just got a lot easier with the CashFX Group. The 5 trillion dollar a day forex industry attracts millions of people with a shared dream of financial freedom.

The CashFX Group is artfully combining the technical expertise required for forex success, with a dedicated corporate team, state-of-the-art headquarters, which they own, and a passion for helping those with a strong desire to improve their lives.

The great thing about CashFX is that you can make money, passively, with absolutely no knowledge of forex trading. The company makes all your trades for you, automaticity. You can purchase a trading package for as little as 300 USD, larger packs are also available.

Another great feature of CashFX is that it combines a highly profitable forex trading platform with the power of multi-level marketing (MLM). You don't need to recruit anyone in order to make good money, but if you do chose to do so, your earnings can rapidly skyrocket.

Frequently Asked Questions (FAQs)

Question: Is it a scam or ponzi scheme?

Answer: There are plenty of naysayers on the internet who will tell you it is. I prefer to see the evidence of my own eyes and to listen to the accounts of close personal friends who are consistently making money out of this.
